

THE BEST PHONE CARD IN THE WORLD

Instructions & Access Codes HANDY POCKET GUIDE

Using a permanent marker, write your most often used access numbers and PIN Code on the handy keychain card (recharge customers only). Security hint: memorizing the last 4 digits of your PIN code eliminates the need to write them on your card.

Instructions From Within the USA:

1) Dial the appropriate local access number from the area you are in (found later in this guide). If no local access number is available, use this toll-free number:

1-800-772-5390.

Please note that rates for using the toll-free number are 2¢ additional/per minute. When using the toll-free number from a payphone, 35¢ per call FCC Payphone Surcharge applies.

2) At the prompt enter your PIN number. If you push an incorrect digit while entering your PIN, push the star key * one time, and re-enter your PIN.

3) Enter the phone number you wish to call, beginning with the area code.

4) If you wish to make additional calls right away, don't hang up. Just push the pound sign three times ###

Instructions From Other Countries:

1) Dial the appropriate toll-free international access number (found later in this guide).

2) Continue from Step 2 (above).
